MASFA Dinner Meetings – Get Yourself Connected

Wednesday, September 12, 2018, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: Evolution of the Industry: Pneumatic Fasteners – Putting the “NEW” in Pneumatic

1.0 PDH

Speakers: Don Kudlak, Director of Product Development– Aerosmith Fastening Systems
Brett Miller, Account Executive – MaxUSA

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: This is the next installment in our ongoing series of seminars focusing on the “Evolution of the CFS Framing Industry”, showcasing products and services that take the generic commodity CFS framing we all know and have been using for years and have improved upon them, taking them to the next level. This series runs periodically among our normal dinner meetings. This seminar will focus on two

national manufacturers, who took the concept of general mechanical fastening and elevated it with their unique products for pneumatic pins for connection of floor, wall and roof sheathing, as well as fastening of CFS stud to track and track to steel and concrete. These pins offer many valuable efficiencies in construction, as well as comparable and competitive capacity values to other currently prevalent mechanical fasteners, such as screws and power actuated fasteners. Each of our two manufactures will discuss their product and how it came to be developed, then there will be a panel discussion at which time the attendees can ask questions of the panel.
