MASFA Dinner Meetings – Get Yourself Connected

Thursday, March 14, 2024, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington, and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: Get Fired Up for Firestop!

1.0 PDH

Speakers: Dave Augello, Regional Manager –STI
John Mazarella, Field Engineer - STI

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: IBC building code firestopping requirements are being enforced on construction projects at an ever-increasing rate. Specified Technologies Inc., an industry leader in developing fire protection systems, will be leading a discussion on the basics of the firestopping for framing contractors and engineers, with an emphasis on firestopping coordination and specific details in cold-formed steel framed assemblies. This presentation will demonstrate how to avoid failed inspections and costly change orders by identifying the correct UL systems for your project. You will also learn about engineered judgements, special requirements when firestopping shaft walls, and recent innovative developments in firestopping.
