MASFA Dinner Meetings – Get Yourself Connected

Thursday, January 19, 2023, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: Evolution of the Industry: Connections to Post-Tensioned Concrete

1.0 PDH

Speakers:

- Howard Good, Director of New Business Development, Aerosmith
- Joseph Plummer, Field Engineer, DeWalt
- Steve Adkins, Regional Manager, ITW
- Matt Estrem, Regional Manager, Hilti
- Mark Jarvinen, Senior Field Engineer, Simpson Strong-Tie

aerosmith®

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: In the Mid-Atlantic region, post-tensioned (PT) concrete is a very common system used for concrete primary structures. But, CFS framing must connect to these systems for support, in both structural and nonstructural uses. The PT cables weave up and down in the concrete members, thus requiring any post-installed fasteners to only be permitted to be embedded $\frac{3}{4}$ ", which is very difficult when high shear and tension loads are required at a connection. Fastener manufacturers have products, and are constantly developing new products to deal with this difficult depth constraint. Several of the manufacturers who deal in our region have agreed to come together for a presentation and panel discussion on this topic. Come and learn how existing and new technologies can help your company on your projects. MASFA is offering the networking opportunities to help you succeed.
