Dear CFS Industry Member:

On behalf of the Mid-Atlantic Steel Framing Alliance, we would like to ask you for your membership and support of our organization in 2024. Without the generous contributions from you and other local companies interested in cold-formed steel framing, our non-profit organization would not be sustainable.

We would also like to take this opportunity to thank our 2023 sponsors once again!

The last several years have been a challenge for all of us. But now MASFA is back in full-swing and has been able to fully resume our quarterly in-person dinners in Virginia and Maryland as well as our annual TopGolf event.

We understand that the economy is posing a tremendous challenge in our individual businesses and uncertainty for the future has all of us a little concerned. For this reason, our membership and sponsorship rates for 2024 will remain at the rates that we have had for more than a decade in the hope that you will still find it beneficial to sponsor this year.

Your membership dues and sponsorships fuel the engine that keeps our organization running. MASFA cannot operate without the support from local businesses and national companies with local interests in the Mid-Atlantic region. Please help us continue to provide a strong environment for educating the design and construction community on cold-formed steel framing.

Enclosed you will find information on the benefits of membership and sponsorship levels. If there is any other way that we can assist the industry, please do not hesitate to contact me. Thank you for your consideration.

Yours truly,

Jeffrey M. Klaiman, PE
MASFA President – ADTEK Engineers
